This eBook features links to Lexis Advance for further legal research options.

Advanced Tort Law Citizenship is generally viewed as the most desired legal status an individual can attain, involving the belief that citizens hold full inclusion in a society, and can exercise and be protected by the Constitution. Yet this membership has historically been exclusive and illusive for many, and in Citizenship and its Exclusions, Ediberto Roman provides a sweeping, interdisciplinary analysis of citizenship's contraditions. Roman offers an exploration of citizenship that spans from antiquity to the present, and crosses from political to personal and cultural dimensions of the concept. Beginning with Greek and Roman writings on citizenship, he moves on to late-medieval and Renaissance Europe, then early Modern Western law. His analysis culminates with an explanation of how past precedents have influenced U.S. law and policy regulating the citizenship status of indigenous and territorial island people, as well as how different levels of membership have created a de facto subordinate citizenship status for many members of American society, often lumped together as the "underclass." "What kind of harms matter, and why? Steeped in the history of American tort law, Martha Fineman Smith and Jennifer B. Wriggins demystify how attitudes about race and gender run through the harms recognized—and not recognized—by American law. Along the way, this fine book sheds light on deliberate and unconscious stereotyping, the shifting treatments of workplace and family injuries, the influence of social movements on law and public attitudes, and alternative approaches to harms, causation, and damages. This book is brimming with insights about how societies do and should express what matters in assigning liability for human pain and loss." "This book asks important questions about the tort system. Tort law is largely taught and described from a doctrinal perspective that makes law appear so concretely defined. This book shows us how it is actually working on the ground. This book assesses how the tort system fares in operation by examining how race and gender influence court decisions in tort cases. A promising direction for scholarship on the tort system." European Tort Law

Tort Law Concentrate What happens if a driver carelessly crashes into another car? Or a newspaper publishes a story which makes derogatory comments about someone? Or if a resident plays loud music every night so that their neighbour cannot get any sleep? Tort law is a collection of such misbehaviours or misadventures where the law deems it appropriate to intervene with civil remedies. This new textbook addresses a range of the most prominent torts. The law is explained with clear writing and an accessible approach, relating the subject to everyday examples. There are key learning points to help anchor the reader's basic understanding, and sections of analysis to guide the reader to a more advanced level. Above all, tort law is interesting, for it covers so much of our daily lives, and is a constant source of evolution. The Routledge Spotlights series brings a modern, contemporary approach to the core curriculum for the LLB and GDL, which will help students: move beyond an understanding of the law; refine and develop the key skills of problem-solving, evaluation and critical reasoning; discover sources and suggestions for taking your study further. By focusing on recent case law and real-world examples, Routledge Spotlights will help you shed light on the law, understand how it operates in practice, and gain a unique appreciation of the contemporary context of the subject. This book is supported by a range of online resources developed to aid your learning, keep you up to date and help you prepare for assessments.

Tort Law 'Tort Law' offers a stimulating introduction to the subject. Jenny Steele provides a sound analysis of the key principles before exploring a wide range of critical perspectives through an extensive selection of cases and materials. Tort Law for Paralegals, Third Edition Tort Law: Principles in Practice is an approachable and engaging casebook, with a variety of pedagogical features and tools to examine tort law doctrine and rules and their application in practice. Introductory text for each chapter, sub-section, and cases frame the issues under discussion, aiding student comprehension. Key Features: Text boxes and photographs, sample pattern jury instructions, checklists, and end-of-chapter essay questions. Chapter Goals are listed at the beginning of each chapter to highlight the key areas of coverage and provide a checklist for students when reviewing material. New key cases (e.g., new cases dealing with “but-for” causation and cutting edge coverage of the social-benefits defense showing a recent trend toward acceptance of this defense). Expanded short practice problems after most cases.

Tort Law for Paralegals Third Edition Tort Law: A Modern Perspective is an advanced yet accessible introduction to tort law for lawyers, law students, and others. Reflecting the way tort law is taught today, it explains the cases and legal doctrines commonly found in casebooks using modern ideas about public policy, economics, and philosophy. With an emphasis on policy rationales, Tort Law encourages readers to think critically about the justifications for legal doctrines. Although the topic of torts is specific, the conceptual approach can help you develop the key skills of problem-solving, evaluation and critical reasoning; discover sources and suggestions for taking your study further. By focusing on recent case law and real-world examples, Routledge Spotlights will help you shed light on the law, understand how it operates in practice, and gain a unique appreciation of the contemporary context of the subject. This book is supported by a range of online resources developed to aid your learning, keep you up to date and help you prepare for assessments. The Oxford Introductions to U.S. Law

Fault Lines Late night comedians and journalists eagerly seized upon the case of an elderly woman who sued McDonald’s when she spilled hot coffee in her lap as a prime example of frivolous litigation. But as Rusted and Koenig argue, cases such as these are an incomplete and misleading characterization of tort law. Corporations have successfully waged a public relations battle to create the impression that most lawsuits are spurious, when in fact the opposite is true: tort law plays a crucial role in protecting consumers from dangerous and sometimes life-threatening hazards. Without legal remedies, corporations would suffer no penalty for causing profits over public health and safety. In Defense of Tort Law is the first book to systematically examine the social, legal and policy dimensions of the tort reform debate. This insightful analysis of solid empirical data looks beyond popular myths about frivolous lawsuits, and tackles a variety of contentious issues. Should punitive damages be capped? Who is favored by tort law? Who loses, and why? Koenig

Page 2/4
and Rustad’s detailed case study analysis also reveals disturbing gender inequities in a legal system that is largely dominated by men. Because women are disproportionately injured by medical products, impermissible HMO cost cutting, medical malpractice and sexual exploitation, restrictions on the rights to recovery in these fields inevitably creates gender inequity in torts. Engaging up to date, In Defense of Tort Law also identifies aspects of the current law that require further elaboration, including the need for measures to combat cybercrime against consumers.

Louisiana Tort Law This book does what it ‘says on the tin’ - stating the corpus of tort law as a body of principles. Undertaken for the first time in English tort law, this book describes the law of tort concisely, accessibly, and accurately, and with both depth and detail.

Modern Tort Law Complete Tort Law: Text, Cases, & Materials combines extracts from a wide range of recent cases with clear explanatory text to create a complete resource for students. A wealth of features provide a high level of support, making this an ideal introduction to tort law.

Tort Law G. Edward White's Tort Law in America is regarded as a standard in the field. Concise, accessible and wide-ranging, White’s work represents a major work of legal scholarship, providing an enduring intellectual history of American tort law.

Tort Law This textbook provides insight into the differences, commonalities and mutual influence of the tort law systems of various European jurisdictions, bringing together national tort law, comparative law, EU law, and human rights law.

Tort Law Tort doctrine is complex and nuanced on its own; a torts casebook that mystifies first year students will not help them develop the core skill of legal analysis. Tort Law in Focus presents concepts in a way that students can understand and apply. Rather than hide the ball, Geoffrey Rapp explains new terms clearly, and guides students in the specific techniques of applying tort law to practice-based problems. Along with concrete examples, Tort Law in Focus provides clear and thorough introductions to those areas of tort law (such as proximate cause under the dominant and new Restatement approaches; res ipsa; factual cause, including but-for cause and alternatives in special cases like indivisible injuries and alternative causes; the duty of owners and occupiers of land; and comparative negligence) that are especially challenging for first-year law students. Professors and Students Will Benefit From: Clear introductions and transitional text that frame key rules, concepts, and cases A wide selection of modern, high-interest cases that apply dominant legal rules, and which, where possible, interpret and apply the Restatement (Third) Summaries and discussion of canonical cases that convey the history and development of modern tort law Examples, flow charts and maps that illustrate concepts, rules, and the relationships among parties and interests Consistent use of problems that encourage students to implement “IRAC” (or equivalent) strategies for structuring their analysis Samples of documents commonly used in tort law practice, such as demand letters and complaints

Foundations of Tort Law Universally considered to be pathbreaking, landmark, original, and provocative since its first edition was published three decades ago, "Women in Law" continues to provide a sociological and historical analysis of the overt and subtle ceilings placed on women in the legal profession in their various roles. It is a foundational work for departments of gender studies, law, and sociology - but also reads as accessible and interesting to a general audience. Adding a new foreword by Stanford's Deborah Rhode, the thirtieth anniversary edition of this classic book reports countless revealing interviews, war stories, and inside glimpses of the many professional roles that women inhabit: lawyers, judges, professors, leaders, and backroom labor. It also brings vividly to life the candid - and sometimes cringeworthy - assessments by male lawyers and judges about the changes to the profession ushered in by the increasing entry of women to the lawyers' club. Part of the "Classics of Law & Society" Series from Quid Pro, "Women in Law" is recognized as within the canon of its field, and now is available in a modern paperback format. It features embedded page numbers from the previous print editions (to facilitate referencing,

Page 3/4
When Cynthia Fuchs Epstein published her pathbreaking account of "Women in Law," their status in the profession was separate and anything but equal. Over the last three decades, much has changed but too much has remained the same. Now, about half of new lawyers in the United States are women and they are fairly evenly distributed across substantive areas. Yet significant gender disparities persist. Women constitute about a third of the lawyers in large firms, but only about 17 percent of equity partners. Attrition rates are almost twice as high among female associates as among comparable male associates. When Epstein published "Women in Law," part of what attracted its widespread acclaim was its originality; it was among the first in what has now become a rich literature on gender and diversity in the profession. Indeed, the fact that the book is being reissued testifies not only to its enduring scholarly value, but also to the attention that the issue now commands. Her book helped inspire that movement, and our profession remains deeply in debt.

Deborah L. RhodeErnest W. McFarland Professor of Law, Stanford Law School

Impressive a story which the legal world can read with no legal pride and which others will read with substantial interest.” - "New York Times Book Review” (reviewing the first edition)

Tort Law Written by leading academics, this exciting new student-focused textbook offers readers a comprehensive understanding of Tort Law and enables them to become confident critical thinkers. Accessible and thought-provoking, Tort Law combines clear explanations of core legal principles and recent legal developments with lively discussions of key academic perspectives. Extended problem questions, flowcharts and relatable examples help students to understand how law works in a practical context and prepares them for success in assignments and exams. Engaging pedagogical boxes, such as ‘Viewpoint’ and ‘Making Connections’, encourage students to develop their own critical thinking practice and appreciate how Tort Law interacts with other areas of the core law curriculum. Comprehensive and student-friendly with engaging visual features, Tort Law is an essential companion for all undergraduate Tort Law modules, for students of all abilities.

Tort Law This study aid features an innovative method of content organization. It uses a checklist format to lead students through questions they need to ask to fully evaluate the legal problem they are trying to solve. It also synthesizes the material in a way that most students are unable to do on their own, and assembles the different issues, presenting a clear guide to procedural analysis that students can draw upon when writing their exams. Other study aids provide sample problems, but none offers the systematic approach to problem solving found in this book combined with concise analytical summaries of the leading issues in tort law.
